**Los Angeles, CA, October 16, 2024** — Fall has always been a busy time of year for **Jimmy Eat World**, with half of their catalog being released in the autumn over the course of the alternative-rock quartet's three-decade-plus career.

This year is no different: Beginning October 21, Jimmy Eat World are releasing the **20th anniversary vinyl edition of their gold-certified fifth studio album, *Futures*** (2004 / Interscope Records), and the **5th anniversary vinyl version of their 10th studio album, *Surviving*** (2019 / RCA Records).

**In conjunction with *Futures*' 20th, the band will perform the album from start to finish Oct. 17** in their hometown of Phoenix, AZ at The Van Buren. The one-night-only show is sold out, but **Jimmy Eat World fans around the world can watch via the premier streaming platform Veeps.**

**Veeps All Access subscribers can watch Jimmy Eat World's Oct. 17 *Futures* show for free, and fans can purchase tickets to the livestream now for \$14.99 at <https://veeps.events/jimmy-eat-world>.** The concert will air live on Veeps at 8:45 p.m. MT. The stream will be available for 12 months after the air date, with a three-day rewatch period for individual ticket purchasers. Veeps content is available via [veeps.com](https://veeps.com) and apps on Apple TV, Roku, iOS, Samsung, and Android.

***Futures: Phoenix Sessions*** (Chapter V) and ***Surviving: Phoenix Sessions*** (Chapter X) were self-produced by Jimmy Eat World and impeccably mixed by frontman Jim Adkins. Both limited-edition releases, available via the band's Exotic Location Recordings, were recorded live as part of their 2021 *Phoenix Sessions*, a partnership with Danny Wimmer Presents on a unique global streaming performance series filmed at the Icehouse in Phoenix.

The ***Futures: Phoenix Sessions 2-LP*** set will be on hand-poured blizzard colored vinyl, and its gatefold package comes with exclusive photos by Steve Thrasher, notes from the band, and an exclusive 20th anniversary etching on side D.

The ***Surviving: Phoenix Sessions LP*** will be pressed on Fade to Black colored vinyl, and it includes an insert with behind-the-scenes photos by Steve Thrasher.

To mark the **25th anniversary of *Clarity*** (1999 / Capitol), in **February 2024 the band released *Clarity: Phoenix Sessions*** (Chapter III), a limited-edition two-LP pressed on sunkissed colored vinyl. **For those looking to order all three chapters, you can now do so [here](#).**
